# MASTER PARTS AND ACCESSORIES ILLUSTRATION CATALOG

FORD PARTS and SERVICE DIVISION

**FORM FPS 8095-B  
GENERAL INSTRUCTIONS**

This Lincoln-Mercury Master Parts Catalog contains parts illustrations for Bobcat, Capri, Comet, Cougar, Lincoln, Mark IV, Mark V, Mercury, Meteor, Monarch, Montego, Versailles and Zephyr for model years 1973/ for U.S. and Canadian built vehicles.

Use this illustration catalog in conjunction with the text catalog, form FPS 8095-A.

For greater convenience this catalog is divided into specific sections, such as brakes, front suspension, engine, transmission, etc. For example, FRONT SUSPENSION appears in Section 30, STEERING in Section 35, Rear Axle in Section 40, etc.

A separate catalog which contains the text or descriptive information for the same model years is available as form FPS 8095-A. The text catalog is divided into sections also and like parts are shown under similar section numbers in both the text and illustration catalogs.

A listing of Lincoln-Mercury group numbers and their related section numbers appears in the General Information Section of the text catalog, form FPS 8095-A.

Illustrations contain group numbers only, therefore, it is necessary to refer to the group within the text catalog listing for complete applicable part number.

The driver's side is the left hand side of the vehicle and determines whether such parts as fenders, lamps, etc. are right or left hand.

Model year application is indicated by showing the first year followed by a diagonal line to indicate continued usage in all subsequent years until the insertion of the last year of usage, which is shown after the diagonal line. If no diagonal line is shown the part is applicable only to the year shown.

**Example -**

- 73/ indicates part used 1973 through subsequent models.
- 73/74 indicates part used 1973 through 1974 model years.
- 73 indicates part used 1973 model year only.

For Certification Label Data, Catalog Model Codes and Body Type Codes refer to the General Information Section of the Text Catalog, form FPS 8095-A.

The various car lines and their body types are identified by vehicle catalog codes and body type codes in the text catalog as follows -

VEHICLE	CATALOG CODE	BODY TYPE DESCRIPTION	BODY TYPE CODE
Bobcat	L	Convertible	76
Capri	J		
Comet	P	Four door hardtop	57
Cougar	F	Four door pillared hardtop	53
Lincoln-Continental	D	Four door sedan	54

## PROCEDURE FOR USING CATALOG

There are three ways of finding part numbers.

1. By Part Name
2. By Illustration
3. By Identification

Should an inquiry be received for a fuel pump for a 1973 Lincoln-Continental -

BY PART NAME

- A. Refer to the Chassis Alphabetical Index in the Text Catalog (form FPS 8095-A).
- B. Refer to the alphabetical nomenclature and find the part name "Pump assy. (fuel)".  
The group number listed is 9350.
- C. Refer to group number 9350 and locate the year 1973 in the "YEAR" column. Find the vehicle catalog code "D" (for Lincoln-Continental) in the "MODEL/RESTRICTIONS" column.
- D. The part number shown is D3VY 9350-B.

BY ILLUSTRATION

- A. Refer to this Illustration Catalog to the divider marked "FUEL".
- B. Refer to the index immediately behind the divider and find the illustration titles for 1973 D (Lincoln-Continental).
- C. Under the heading "D (LINCOLN)" find the "Fuel pump and filter" illustration for the 1973 Lincoln-Continental.
- D. Refer to the illustration designated (on page 6 of Illustration Section 90.1) and find the group number for the fuel pump assy. to be 9350.
- E. Refer to group number 9350 in the Text Catalog (form FPS 8095-A) and locate 1973 in the "YEAR" column. Find the vehicle catalog code "D" (for Lincoln-Continental) in the "MODEL/RESTRICTIONS" column.
- F. The part number shown is D3VY 9350-B.

BY IDENTIFICATION

Certain parts and most major assemblies are identified with a part number shown on an attached tag or plate or on the part itself. Reference to identification numbers is made throughout the catalog and cross reference charts are included in some sections to provide immediate knowledge of the service part number when the identification number is known. All identification information other than charts will be preceded by the symbol (#).  
IMPORTANT - Identification tags and plates must be retained with the part or assembly with which they are originally supplied.

**HOW TO ORDER PARTS**

When ordering parts, always give the complete part number.

In the event the part number is not known, the following information should be included.

- A. Complete description of part.
- B. Model year and body type.
- C. Dimension, number of teeth, size, etc., if possible rough sketch of part.
- D. If applicable to engine, transmission, axle, steering, etc., specify type, such as 400 cubic inch, Automatic Transmission, Power Steering, etc.
- E. Advise how shipment is to be made - Freight, Express, Air, Parcel Post.

**EXPLANATION OF SYMBOL ★**

- ★ Symbol indicates part is not supplied for service due to the following:
- a. Part is superseded and replaced as indicated in the description column of the text catalog.
  - b. Part can be improvised as indicated in the description column of text catalog.
  - c. Due to its function there would be little or no demand.

NOTE - ALWAYS REFER TO THE DESCRIPTION COLUMN OF THE TEXT CATALOG FOR POSSIBLE SUBSTITUTION, OR FOR MATERIAL SPECIFICATIONS AND DIMENSIONS WHICH MAY BE HELPFUL IN OBTAINING THE NON-SERVICED PART LOCALLY.
